Deadline for manuscript submissions:

closed (30 June 2021)

Message from the Guest Editors

Dear Colleagues,

It's a pleasure for us to invite you to participate to a special issue of Journal of Clinical Medicine, regarding all the aspects of minimally invasive surgery of abdominal wall hernias. As you know, there is still a great debate on proper indications and approaches for abdominal wall hernias, in particular on more complex situations, such as larger incisional hernias, complex abdomen, recurrent hernias, non-midline hernias. This special issue will deal on laparoscopic, endoscopic and robotic approaches to abdominal wall repair and reconstruction, particularly focusing on innovations and advantages of these mini-invasive techniques in this particular field. Due to your great experience in this field, we consider your contribution (in the form of both clinical study or review) of primary importance in the development of this issue, and in the growth of scientific knowledge of the surgical community.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
