Message from the Guest Editor

Dear Colleagues,

Stroke remains a significant global health concern, posing substantial challenges to healthcare systems worldwide. For the purpose of advancing our understanding and improving patient outcomes, we are pleased to announce a Special Issue dedicated to "Stroke Diagnosis and Outcome Prediction". This initiative aims to bring together cutting-edge research and innovative contributions that address the multifaceted aspects of stroke management.

This Special Issue will encompass a broad spectrum of topics related to stroke diagnosis and outcome prediction, including but not limited to biomarkers and predictive models, technological innovations, clinical interventions and rehabilitation, and patient-centered approaches. Join us in this collaborative effort to deepen our understanding of stroke, enhance diagnostic capabilities, and ultimately improve the quality of life of individuals affected by this challenging medical condition.
