Deadline for manuscript
submissions:

1 December 2024

Message from the Guest Editors

Dear Colleagues,

During the last several decades, minimal-access surgery has become the gold standard in many diseases and concomitant therapies because of the obvious benefits for patients. In this transition period, multiple challenges had to be coped with. However, the inherent risks of working in a closed environment especially require further attention and research. This Special Issue represents a meaningful contribution to the scientific evolution, and discusses several up to date topics with which surgeons in the field are confronted. Key opinion leaders are giving their comments in the form of expert statements, as a guide for clinical use and upcoming investigations.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
