Message from the Guest Editors

Recent technological advances incorporated into our daily practice include robotic surgery, navigation, endoscopic surgery, and more. Emphasis has shifted from basic clinical skills to technical discussions. Even today, technology does not replace the primary fundamental clinical skills, such as anamnesis, a thorough physical examination, imaging studies' assessment, and basic surgical skills, such as soft tissue handling, hemostasis, anatomical approaches, etc. Technology should not be reviewed as the goal but as a means to achieve surgical goals.

Therefore, in-depth research on basic preoperative and intraoperative skills correlated with advanced technology is required.

In this Special Issue, we invite clinicians and scholars in spinal surgery or related fields worldwide to share their experiences, knowledge, and research regarding the up-to-date interaction between old skills and new technology.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
