Aviv, Israel

Deadline for manuscript
submissions:

25 September 2024

Message from the Guest Editor

Dear Colleagues,

It is our great pleasure to present this Special Issue on managing complications of reconstructive and aesthetic breast surgery. This topic is significant in breast surgery as timely diagnosis and treatment of breast surgery complications can dramatically change the course of recovery from surgery and have an imperative effect on the operative outcome. As our technique in breast surgery evolves, with the emergence of new devices and technologies, we have the opportunity to reduce the rate of complications and improve the management and outcome. We welcome authors to submit papers on managing complications in breast surgery, both aesthetic and reconstructive.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
