Message from the Guest Editors

Dear colleagues,

Abdominal aortic aneurysm (AAA) is an important disease causing high morbidity and mortality rates worldwide. There has been continuous research during the past decade to investigate the pathophysiology, i.e., factors that may influence the natural progression of the disease as well as several clinical aspects of AAA treatment. Endovascular aneurysm repair (EVAR) has revolutionised AAA treatment in recent decades, offering excellent early and good mid-term outcomes, although durability in the long term still remains doubtful.

This Special Issue aims to provide an update of research on new clinical data and perspectives on the whole area of AAA management, including perceptions of new technologies and novel devices. Accordingly, this Special Issue will try to provide a forum for high-quality original research and review articles to showcase the most recent advances in AAA management and treatment.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
