submissions:

closed (15 November 2022)

Message from the Guest Editors

Sepsis is defined as life-threatening organ dysfunction caused by a dysregulated host response to infection. Sepsis continues to be the primary cause of death from infection, and early recognition and appropriate treatment are required to improve outcomes, novel therapeutic interventions for sepsis have been explored over the last several decades with inconsistent benefits.

This Special Issue aims to publish contributions from distinguished authors who actively experience innovations in the field of sepsis and septic shock and want to provide more solid scientific evidence. We welcome all original works and reviews. (Note that case reports and short reviews are not accepted)

Keywords:

sepsis
septic shock
infection
antibiotic treatment
source control
early resuscitation
hemodynamic monitoring
fluids
vasopressors

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
