Message from the Guest Editor

Dear Colleagues,

In recent years, huge progress has been made in both the diagnosis and monitoring of Crohn's disease. Non-invasive, patient-friendly, and remote monitoring techniques such as capsule endoscopy, intestinal ultrasound, and home-based fecal calprotectin are gaining increased acceptance, replacing more traditional and invasive monitoring techniques. The ongoing COVID-19 pandemic has caused significant restrictions on patient mobility and enhanced the need for friendly remote monitoring and telemedicine. Novel therapies with more ambitious treatment goals, such as transmural healing and histological healing, are being evaluated in clinical trials and observational studies. Proactive treatment strategies and personalized monitoring approaches are also being increasingly evaluated.

The current Special Issue will focus on personalized medicine in CD, including but not limited to novel biomarkers, remote monitoring of disease activity, novel drug combinations, predictors of response to treatment and disease course and therapeutic targets.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
