submissions:

**closed (10 September 2021)**

### Message from the Guest Editor

Dear Colleagues,

Monoclonal antibodies (mAbs) have shown amazing potential in treating inflammatory diseases and cancer, but, thus far, only a limited number of clinical candidates are being developed for infectious diseases. The critical need for antibody therapies for COVID-19 has challenged pre-clinical and clinical developmental timelines for novel mAb-based modalities. Furthermore, novel mAb formats are widening the application of these drugs to previously unexplored target areas. For this Special Issue 'Accelerating Monoclonal Antibody Development for Therapeutic Use in Clinical Practice', we invite papers describing such developments in the fields of treatment of inflammation, cancer, and infectious diseases, with an emphasis on the use of novel biomarkers that could indicate efficacy and accelerate progress toward clinical use.

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
