### Message from the Guest Editor

Dear Colleagues,

Pituitary tumors are one of the common diseases, affecting approximately 1 in 1000 of the general population. Endocrinologists, neurosurgeons, otolaryngologists, neurologists, ophthalmologists, and neuro-oncologists frequently deal with pituitary tumors in daily practice. Pituitary adenomas are mostly benign, and some associated with specific syndromes (e.g., acromegaly, Cushing's syndrome, hyperprolactinemia) are due to inappropriate hormonal secretion. However, thorough diagnosis and multidiscipline management of pituitary adenoma remain continuous challenges. The aim of this Special Issue is to provide current advances in the diagnosis and treatment of pituitary tumors, with particular interest in the classification of various pituitary adenomas, prospective clinical studies, and innovative therapeutic modalities. Therefore, researchers and physicians are encouraged to submit their findings in this area as original articles or reviews to this Special Issue.

an Open Access Journal by MDPI

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
