Advances in Laparoscopic and Robotic Surgery in Urology

Message from the Guest Editors

In recent decades, minimally invasive techniques replaced the open approach in most urologic procedures. The indications have been expanded to fragile patients as well as to challenging cases (such as salvage cystectomy or prostatectomy, high nephrometry score partial nephrectomy, caval thrombectomy, and metastasectomy). More recently, new robotic platforms (single-port and multi-port) have been introduced, showing encouraging results in many urological procedures. In this Special Issue, we welcome the submission of papers dealing with experiences of laparoscopic and robotic procedures in oncologic and reconstructive surgery (urinary diversion, ureteral reimplantation) as well as techniques for benign disease (simple prostatectomy or nephrolithotomy). Keywords

- robotics
- laparoscopy
- cystectomy
- partial nephrectomy
- prostatectomy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
