

Special Issue

Advancing Minimally Invasive Spine Surgery: A Special Edition on Endoscopic Spine Surgery

Message from the Guest Editors

The Special Issue (SI) will explore the latest innovations, techniques and clinical applications of endoscopic spine surgery, especially focusing on dual-port and uni-port approaches. As minimally invasive methods continue to evolve, the SI will highlight advancements in technology, surgical strategies, and patient outcomes while examining the nuances between dual-port and uni-port techniques. Through various expert perspectives, case series and research findings, the SI will delve into the expanding role of endoscopic techniques for treating spinal disorders. The discussion will cover the benefits and limitations of both dual-port and uni-port procedures, including instrumentation considerations, procedural refinements and patient selection criteria. Additionally, the content will address the learning curve and training methodologies necessary for mastering these techniques, as well as their long-term efficacy. The SI aims to serve as a comprehensive resource for spine surgeons, researchers, and healthcare professionals committed to enhancing patient care by applying minimally invasive endoscopic approaches in spine surgery.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
