

## Special Issue

# Vascular Surgery: Current Advances and Future Directions

### Message from the Guest Editor

Carotid revascularization remains an important part of the everyday practice of a vascular surgery unit. Although much studied with several scientific publications, there are still parts of this topic that remain debated and are not clarified by the most recent guidelines. The scope of the Special Issue is trying to, according to your personal experience and a thorough review of the literature, shed some light on the more controversial aspects of carotid revascularization. In particular regarding the use of carotid artery stenting in recently symptomatic stenosis, the treatment of tandem intracranial and extracranial carotid stenosis in patients with acute stroke or carotid revascularization after intravenous thrombolysis. I hope you find this proposal intriguing and could help us write an interesting issue.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
