Special Issue

Clinical Diagnosis and Treatment of Schizophrenia

Message from the Guest Editor

Complex and chronic schizophrenia and schizophrenia spectrum disorders are present worldwide in all cultures. According to the WHO, it is one of the 10 most disabling diseases. However, giving a diagnosis is never easy for the subject, the families and sometimes even the teams, particularly with early-onset schizophrenia. Moreover, many unknows remain in this pathological spectrum regarding its limits and borders. Finding new markers and more precise clues to make progress in diagnosis and care, has been one of the challenges of recent years in terms of research. In this Special Issue, we welcome authors to submit their papers on the clinical and paraclinical (biological, imaging) advances that will help us to better understand schizophrenia spectrum disorders and early-onset schizophrenia in order to improve care.

- schizophrenia
- early-onset schizophrenia
- very early-onset schizophrenia
- diagnosis
- care

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
