Cardiothoracic and Vascular Anesthesia—Clinical Management and Challenges

Message from the Guest Editors

Due to the increasing number of patients with cardiovascular diseases, anesthesiologists and intensivists are confronted with an increasing number of cardiothoracic and vascular procedures. Advances in surgical and endovascular interventions arose from technological development. Similarly, anaesthetic techniques and perioperative patient management have evolved significantly over the last few decades. Both surgical and anaesthetic procedures impact the course of patient management, from prehabilitation to intervention and immediate treatment and rehabilitation. In addition, new strategies in the intensive care are leading to a better recovery. In this Special Issue, we invite authors to submit articles on clinical findings and innovations in cardio-thoracic and vascular anesthesia. We look forward to original research articles and reviews.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
