

Special Issue

Emerging Diagnostic and Treatment Approaches for Gynecological Cancers

Message from the Guest Editor

This Special Issue is dedicated to exploring the latest advancements in the diagnosis and treatment of gynecologic cancers. Despite significant progress in understanding their molecular mechanisms, these malignancies continue to pose considerable challenges in clinical management. The primary objective is to investigate novel strategies for early detection, identify reliable predictive biomarkers, and enhance personalized treatment approaches, with a particular emphasis on immunotherapy, targeted therapies, and precision medicine. Additionally, this issue will cover cutting-edge developments in surgical techniques, radiation therapy, and integrative treatment modalities. We welcome original research articles and comprehensive reviews that present groundbreaking findings, aiming to offer a broad perspective on emerging opportunities to improve patient survival and quality of life. We invite contributions from oncologists, gynecologists, molecular biologists, nurses, psychologists, and other professionals engaged in gynecologic cancer research.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
