

## Special Issue

# Clinical Advances in Hepatobiliary Surgery: Diagnosis, Prognosis, Management & Surgery for Colorectal Liver Metastases

### Message from the Guest Editors

This Special Issue presents a comprehensive overview of the latest advancements in the field of hepatobiliary surgery, with a particular focus on the diagnosis, prognosis, management and surgical treatment of colorectal liver metastases. The issue brings together cutting-edge research, clinical insights and expert opinions from renowned specialists in the field, adding to the field with great depth and enormous clinical impact. The Special Issue covers a wide range of topics, including innovative diagnostic techniques such as molecular imaging and liquid biopsies, prognostic factors and predictive models for colorectal liver metastases, minimally invasive surgical techniques and the role of multidisciplinary care in optimizing patient outcomes. We call for papers relating to these topics, in an effort to further stimulate the evaluation of current approaches and search for ways to move forward.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
