Challenges and Opportunities in Application of Transcranial Direct Current Stimulation (tDCS)

Message from the Guest Editors

In recent years, we have experienced epochal changes in the transcranial direct current stimulation (tDCS) field, especially regarding its therapeutic applications. A growing body of evidence has suggested that tDCS has a significant impact on symptom management in various conditions, including pain and neurocognitive and behavioral disorders. Moreover, advances such as home-based tDCS intervention with real-time monitoring have expanded its potential use in real-world scenarios, but several challenges remain. We believe that your collaboration in this Special Issue of the *Journal of Clinical Medicine* entitled “Challenges and Opportunities in Application of Transcranial Direct Current Stimulation (tDCS)” will contribute to the dissemination of current knowledge regarding tDCS, from its neurobiological bases to practical or clinical applications. Please click [here](#) for more information.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
