Kidney Transplantation: Current Challenges and Future Perspectives: 2nd Edition

Message from the Guest Editors

This Special Issue is the 2nd Edition of "Kidney Transplantation: Current Challenges and Future Perspectives"

(https://www.mdpi.com/journal/jcm/special_issues/877PE0MY1G).

This collection aims to investigate new scenarios and challenges in the field of kidney transplantation. We invite original research articles, review papers, and clinical studies that contribute to enriching our knowledge regarding kidney transplantation. Submissions are encouraged that focus on topics such as urologic cancers in transplanted patients, surgical challenges in kidney transplantation, and the use of technology for patient-tailored clinical management. By bringing together the contributions of leading experts and researchers in the field, this Special Issue aims to foster interdisciplinary discussions and promote collaborations to address pressing issues faced in kidney transplantation. We believe that this collection of articles will serve as a valuable resource for clinicians and researchers involved in improving patient outcomes and advancing the field of kidney transplantation.
