Updates on the Treatment of Pancreatic Diseases

Message from the Guest Editor

The pancreas is an organ which plays an essential role in converting the food we eat into fuel for the body's cells. The pancreas has exocrine and endocrine functions. Pancreas diseases are frequent, and prognosis is linked to its aetiology—as an example, localised pancreatic adenocarcinoma justified surgery, where intraductal papillary mucinous neoplasm has no wearisome features. Recent updates in diagnosis imaging help to identify pancreas diseases. In the Special Issue, we stress a focus on updates of pancreatic disease including adenocarcinoma, intraductal papillary mucinous neoplasm, mucinous cystic neoplasm, serous cystic neoplasm and pancreatitis. The Special Issue will take into account the clinical, surgical, radiological improvements in pancreatic diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
