

## Special Issue

# Warfarin Versus the Non-vitamin K Oral Anticoagulants (NOACs) in Clinical Practice

### Message from the Guest Editors

Introduction of the NOACs has provided options for anticoagulant therapy for patients with thromboembolic disease. Numerous factors, now influence choice of anticoagulant and associated efficacy and safety of agents. Differences in health outcomes with individual anticoagulants may be seen according to geographic region, ethnicity, and health management systems. Knowledge and understanding of the factors influencing the quality use of anticoagulants can contribute to identifying which population groups may get most benefit from anticoagulants. This may ultimately help in optimising patient outcomes with individual anticoagulants. This Special Issue of the *Journal of Clinical Medicine* aims to examine advances in optimising oral anticoagulant therapy in clinical practice with application to different settings using real-world data. Of particular interest is the evaluation of health outcomes associated with anticoagulant use in different populations. International comparative outcomes and factors influencing these outcomes from real-world or observational data may further assist selection of appropriate anticoagulation for specific populations or individuals.

### Guest Editors

Prof. Shailendra Anoopkumar-Dukie

School of Pharmacy and Medical Sciences, Griffith University, Gold Coast, QLD 4215, Australia

Ms. Nijole Bernaitis

Griffith University School of Pharmacy and Pharmacology, Gold Coast, QLD, Australia

### Deadline for manuscript submissions

closed (30 May 2019)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
