Cybersecurity in the Transportation Ecosystem

Guest Editors:

Prof. Dimitris A. Gritzalis
ICT Security, Department of Informatics, Athens University of Economics & Business, Athens, Greece

Prof. Dieter Gollmann
Security in Distributed Applications, Hamburg University of Technology, Hamburg, Germany

Prof. Dr. Steven Furnell
School of Computer Science, University of Nottingham, Nottingham NG8 1BB, UK

Deadline for manuscript submissions:
closed (10 October 2022)

Message from the Guest Editors

Topics of interest:

- Information Sharing for Transportation Industries;
- Cyber Intelligence Methods and Tools for Transportation Industries;
- Cybersecurity in the Aviation Sector;
- Airport Information Systems Security;
- Cyberthreats and Cyberattacks to Airplanes;
- Cybersecurity in the Maritime Industry;
- Security of Port Information Systems;
- Cyberthreats and Cyberattacks to Ships and Ports
- Cybersecurity in Land Transportation;
- Cyberthreats and Cyberattacks to Autonomous Vehicles;
- Cyberthreats to Rail, Metro, Freight;
- Rail Information Systems Security;
- Cybersecurity of Vehicle Systems and External Networks Interfaces;
- Cybersecurity of Space Vehicles and Information Systems;
- Cybersecurity and Emergency Management in Transportation Industries;
- Cyberthreat Assessment of the Transportation Sector;
- Supply Chain Security for Transportation Industries;
- Surveys or Case Studies of Cyberattacks to Transportation Industries;
