

Topical Collection

Editorial Board Members' Collection Series: Fibre Composite Materials

Message from the Collection Editors

We are delighted to invite you to submit your recent research articles or reviews on fibre composite materials for this Collection. This Collection covers a broad range of topics related to various types of fibre-based composite materials and their applications in industries such as automotive, construction, aerospace, bioengineering, healthcare, and more. It highlights, but is not limited to, the latest advancements in fibre architecture, matrix–fibre interactions, and manufacturing techniques aimed at enhancing the mechanical, thermal, and environmental properties of these materials, as well as updates on recycling techniques for fibre-reinforced composites. This Collection aims to provide a comprehensive resource for researchers and engineers working to develop advanced fibre composite materials for a broad spectrum of engineering, medical, and environmental applications. We look forward to receiving your contribution to this exciting Collection.

Editor-in-Chief

Dr. Francesco Tornabene

Department of Innovation Engineering, University of Salento, 73100
Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid
by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec,
CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Composites) / CiteScore - Q1
(Engineering (miscellaneous))
