## From Cell to Embryo: A Theme Issue Honoring Professor Dr. Roberto Mayor

Guest Editors:

**Prof. Dr. Sally A. Moody**

Department of Anatomy and Cell  
Biology, George Washington  
University School of Medicine  
and Health Sciences,  
Washington, DC, USA

**Prof. Dr. Kristin Bruk Artinger**

Department of Craniofacial  
Biology, School of Dental  
Medicine, University of Colorado  
Anschutz Medical Campus,  
Aurora, CO 80045, USA

Deadline for manuscript  
submissions:

**closed (20 December 2022)**

### Message from the Guest Editors

Dear Colleagues,

For over 100 years, classical embryological approaches have been critical for revealing the steps that specify different cell fates, which cells interact when germ layers and tissues are induced, and the process of morphogenetic movements. For over 30 years, Professor Roberto Mayor has been a leader in applying the most advanced cell biological techniques to understanding vertebrate development, beginning with his first publication in 1989 on the role of the cytoskeleton in the process of compaction during mammalian blastocyst formation.

This Special Issue is focused on the cell biology of how the single fertilized egg is transformed into a completed individual organism. The Special Issue will include a short review of Professor Mayor's contributions to the field, and other original research articles and reviews on all aspects of the cellular processes that regulate developmental events.

## Message from the Editor-in-Chief

The *Journal of Developmental Biology (JDB)* publishes original research papers and timely reviews. Our primary aim is to provide a platform for the publication of studies on the development of multicellular organisms efficiently and professionally; papers undergo a fast, yet thorough, peer-review process. JDB is an open access journal and accepted contributions are published immediately online, providing unlimited access to the scientific community and general public. We look forward to receiving your contribution to our journal and to working with fellow researchers.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the first half of 2024).
