Kong

Message from the Collection Editor

Dear Colleagues,

In medical and dental fields, cements or biocements are substances that could set/harden and bind with other biomaterials for some specific and functional purposes, such as luting, restoring, and lining. Such a class of biocements could be purely inorganic, purely organic, or blended inorganic/organic substances in chemical nature. In this topical collection, all review or research articles on biocements are welcomed. Emphasis should be put on, but not limited to, chemical, physical, biological, clinical, theoretical, and mechanical aspects, and multi-disciplinary approaches to biocements. The Topical Collections is keen on providing a platform to record, exchange and share the scientific knowledge and evidence via the open access, *Journal of Functional Biomaterials*, and targets to maintain the impact of biocements.

Message from the Editor-in-Chief

The biomaterials field is one of the largest and fastest growing research areas both in the scientific community and in the industrial one. Biomaterials are the result of collaborations between different disciplines: chemistry, medicine, pharmacology, engineering and biology. The objective of this collaboration is to lead to the implementation of new devices to restore form and human body functions. The mission of the *Journal of Functional Biomaterials* (*JFB*) is to focus attention on physico-chemical characteristics and their importance in the interactions between biomaterials and living tissues. *JFB* seeks to publish studies on the preparation, performance and use of biomaterials in biomedical devices, as well as regarding their behavior in physiological environments. We are pleased to welcome you as our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Biomedical*) / CiteScore - Q2 (*Biomedical Engineering*)
