

## State-of-the-Art Functional Biomaterials in China

Guest Editors:

**Prof. Dr. Huiliang Cao**

Interfacial Electrochemistry and Biomaterials, School of Materials Science and Engineering, East China University of Science and Technology, Meilong Road 130, Shanghai 200237, China

**Prof. Dr. Yuqin Qiao**

School of Life Sciences, Shanghai University, Shanghai, China

Deadline for manuscript submissions:  
**closed (31 March 2023)**

### Message from the Guest Editors

Dear Colleagues,

China has become a leader in the research, development, and commercialization of various biomaterials and medical devices. This Special Issue is intended to highlight the cutting-edge progress achieved in recent years by Chinese biomaterial communities.

Original research manuscripts or reviews on the following topics are welcome:

1. Advanced multifunctional biomaterials;
2. State-of-the-Art antibacterial surfaces;
3. Methodologies in material biology;
4. Innovations in probing bio–nano interfaces;
5. Immunomodulatory strategies for implantable devices;
6. Clinical studies associated with the application of biomaterials;
7. Other issues associated with biomaterials and biomedical devices.

Prof. Dr. Huiliang Cao

Prof. Dr. Yuqin Qiao

Materials Science, Queen Mary  
University of London, London, UK

## Message from the Editor-in-Chief

The biomaterials field is one of the largest and fastest growing research areas both in the scientific community and in the industrial one. Biomaterials are the result of collaborations between different disciplines: chemistry, medicine, pharmacology, engineering and biology. The objective of this collaboration is to lead to the implementation of new devices to restore form and human body functions. The mission of the *Journal of Functional Biomaterials (JFB)* is to focus attention on physico-chemical characteristics and their importance in the interactions between biomaterials and living tissues. *JFB* seeks to publish studies on the preparation, performance and use of biomaterials in biomedical devices, as well as regarding their behavior in physiological environments. We are pleased to welcome you as our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Biomedical) / CiteScore - Q2 (*Biomedical Engineering*)
