Deadline for manuscript  
submissions:

**closed (15 June 2011)**

### Message from the Guest Editors

Dear Colleagues,

The Journal of Low Power Electronics and Applications (JLPEA) is seeking original contributions for the forthcoming issue on low power design methodologies and applications. This issue is scheduled for publication in June, 2011. The aim of this issue is to present original design methodologies for low power design at various abstraction levels, starting with the device and technology levels, moving on through the circuit/logic level and finishing with the system and architecture levels. We intend to place special emphasis on the utilization of these methodologies in low power applications.

Prof. Dr. Kaushik Roy

Dr. Alexander Fish

## Message from the Editor-in-Chief

Journal of Low Power Electronics and Applications (ISSN 2079-9268) is an open access journal which provides an advanced forum for the studies of electronics for low power applications. A special emphasize is made on ultralow power bio-medical applications. It publishes reviews, regular research papers and short communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.2 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2024).
