Dr. Steven A. Vitale

Advanced Silicon Technology,
MIT Lincoln Laboratory, 244
Wood Street, Lexington, MA
02420-9108, USA

Deadline for manuscript
submissions:

closed (1 March 2012)

Message from the Guest Editors

Dear Colleagues,

Subthreshold microelectronic circuits are gaining momentum for ultra-low-power applications but their maturity remains low when compared to conventional above-threshold designs. Therefore, this special issue of *JLPEA* is intended to focus on the advances in subthreshold microelectronics with extended versions of papers presented from the 2011 Subthreshold Microelectronics Conference (SubVt 2011) held in Lexington, MA, USA on 26-27 September 2011. However, other works related to ultra-low-power microelectronics not presented at SubVt 2011 will also be considered.

Dr. David Bol

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Davide Bertozzi

Reader in Advanced Processing
Technologies, Department of
Computer Science, University of
Manchester, Manchester M13
9PL, UK

Message from the Editor-in-Chief

Journal of Low Power Electronics and Applications is an open access journal which provides an advanced forum for rapid dissemination of innovative research and important results in all aspects of low power electronics and design.

It publishes reviews, regular research papers and short communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. The full experimental details must be provided so that the results can be reproduced.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.2 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the second half of 2025).
