Message from the Guest Editors

The aim of this Special Issue is to collate the state of the art and showcase recent innovations in advanced machining processes. This Special Issue invites papers in the area of advanced manufacturing and machining processes with a specific focus on the abovementioned areas with the objective to achieve the following:

- Provide an in-depth analysis of recent innovations in machining techniques, such as ultrasonic machining, novel cooling/heating/lubrication techniques, and novel tool designs;
- Provide an insight into the mechanics of material cutting for advanced alloys and composites and their interactions with other parameters in a machining system, including the use of CFD and FEA;
- Report on advances in sensor-based data collection and control and the application of machine learning in manufacturing and specifically machining processes;
- Deliver detailed investigations on the impact of recent advances on the sustainability and environmental aspects of manufacturing processes.

Message from the Editor-in-Chief

Journal of Manufacturing and Materials Processing (JMMP) (ISSN 2504-4494) is a new MDPI peer-reviewed, open access venue with a focus on the scientific fundamentals and engineering methodologies of manufacturing and materials processing. We offer an online platform facilitating effective exchange of innovative scientific and engineering ideas and the dissemination of recent, original, and significant research and developmental findings. On behalf of the Editorial Board, I extend an invitation to our scientific and engineering colleagues to contribute high-quality, innovative, and ground-breaking research articles to *JMMP*.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **ESCI (Web of Science)**, **Inspec**, **CAPlus / SciFinder**, and **other databases**.

Journal Rank: JCR - Q1 (Engineering, Mechanical) / CiteScore - Q2 (*Mechanical Engineering*)
