Deadline for manuscript  
submissions:

**closed (10 January 2023)**

### Message from the Guest Editors

Dear Colleagues,

In order to minimize dangerous anthropogenic interference with the climate system, we need to reduce greenhouse gas emissions in the middle of this century. In addition to industrial efforts and tree planting, marine systems have great potential in carbon uptake and storage and in reducing greenhouse gas emissions. The aim of this Special Issue is to collect cutting-edge knowledge of marine science and engineering, as well as the technological reserve in the field of carbon neutralization. Original research, literature reviews, mini-reviews, and perspectives are welcome. Relevant topics include but are not limited to marine new energy, marine equipment, and marine engineering. New ideas and discussions toward carbon neutralization are especially welcome.

Prof. Dr. Weidong Zhai

Prof. Dr. Tie Li

Prof. Dr. Jun Gong

## Message from the Editor-in-Chief

*Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312)* focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
