Message from the Guest Editors

Dear Colleagues,

Freight transportation and terminal operation are an important topic and play a huge role in the proper functioning of logistics chains. Operators as well as scientists go to great lengths to increase their efficiency and improve operating conditions.

The purpose of this Special Issue is to present the most interesting studies in the area of terminals, harbors and intermodal ports. We encourage you to publish high-quality articles directly related to the various aspects, as mentioned below. The use of novel test techniques is encouraged.

Topics include the management of cargo operations in ports and terminals at various levels, as well as the causes and effects of specific operations and solutions and many other related areas.

We invite you to present analytical techniques, simulation modeling, case studies, etc.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (*Civil and Structural Engineering*)
