Engineering, Gyeongsang
National University, Tongyeong,
Republic of Korea

Deadline for manuscript
submissions:

closed (30 May 2024)

Message from the Guest Editors

(1) Introduction: With the increasing significance of accurate wave forecasts for maritime operations, coastal management, and environmental monitoring, this collection aims to showcase innovative research in machine learning applications within the context of coastal wave dynamics.

(2) Aim of the Special Issue: This Special Issue aims to bring together cutting-edge research at the intersection of coastal dynamics and machine learning, collating at least 10 high-quality articles that delve into advancements in predictive models, data-driven approaches, and interdisciplinary collaborations within the realm of coastal wave prediction and analysis. The Special Issue may be compiled into book form if the submission target is met.

(3) Suggested Themes and Article Types for Submissions: Original research articles and reviews are welcome in areas such as coastal wave prediction, interpretable machine learning, surrogate modeling of fluid dynamics, oceanographic data analysis, remote sensing, wave energy forecasting, data-driven coastal management, interdisciplinary approaches, maritime operations, and environmental monitoring.

Environmental Sciences,
Newcastle University, Newcastle
upon Tyne NE1 7RU, UK

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Engineering, Marine*) / CiteScore - Q2 (*Ocean Engineering*)
