Message from the Guest Editors

Dear Colleagues,

The Special Issue covers research on the applications of Artificial Intelligence and Machine Learning methods to data from marine contexts. Demonstrations of the applications of these methods to different professional areas, such as fisheries, engineering, economy, and society, will be accepted. This Special Issue welcomes multi-disciplinary works combining marine, engineering and computer science approaches. This work relates to the broader contexts of Digital Twins of the Oceans, Big Data, Data Mining, and Open Science for marine data; contributions are expected to relate to these areas.
