Message from the Guest Editors

Dear Colleagues,

After the delay due to the COVID-19 pandemic, the 5th International Workshop on the Taxonomy of Atlanto-Mediterranean Deep-Sea and Cave Sponges recommences in September 2023, with the purpose to spread and enhance interest in the taxonomy of porifera, particularly among young researchers.

The workshop and JMSE invite you to join this Special Issue with contributions related to taxonomy, particularly relating deep-sea and cave sponges of the Atlanto-Mediterranean area, as collections of papers on this topic will be presented.

This Special Issue aims to collect papers also related to the same topics in other geographical areas.

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (*Civil and Structural Engineering*)
