Message from the Guest Editor

Dear Colleagues,

Energy transition to cope with the climate crisis is a global hot topic, and marine renewable energy from offshore wind and wave power is an important energy source with the potential to save the planet and mankind from the climate crisis. As a researcher responding to the climate crisis, I deal with engineering issues in the field of hydrodynamics related to marine renewable energy. For this Special Issue, we are seeking submissions of original research articles and reviews on the topic of marine renewable energy.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (*Civil and Structural Engineering*)
