submissions:

closed (29 February 2020)

Message from the Guest Editor

This Special Issue aims to focus on compilation of current state-of-the-art and future perspectives in marine ecotoxicology of cyanobacteria, mainly with regard to:

- Diversity and ecology of marine cyanobacteria,
- Marine symbiotic cyanobacteria,
- Chemical diversity of marine cyanotoxins,
- Dynamics of cyanotoxins in marine organisms and their ecotoxicological impacts,
- Transfer of cyanotoxins in the marine food chain and associated threats to animal and human health,
- Laboratory, field, and modeling approaches to the above issues.

If ten or more articles are accepted for publication after the usual review process, a hard copy of the volume will be printed. Feel free to contact me or Ms. Estelle Fan (estelle.fan@mdpi.com) if you would like to make a contribution or have any questions

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (*Civil and Structural Engineering*)
