Institute of Information Science
and Technologies, Pisa, Italy

Dr. Marco Reggiannini

Signals and Images Laboratory,
Institute of Information Science
and Technologies, National
Research Council of Italy, Pisa,
Italy

Deadline for manuscript
submissions:

closed (10 June 2021)

Message from the Guest Editors

The authors are invited to discuss theoretical issues and methods concerning remote sensing and data processing over the marine and maritime environment (such as software platforms for surveillance or monitoring, processing algorithms for radar or optical imagery, sea-level assessment through satellite altimetry, integrated methods for the observation of the maritime environment, etc.), not excluding application case studies focused on remote sensing within the maritime context.

To this purpose, authors are invited to submit contributions that take into consideration the following topics:

- Maritime data representation, analysis, and learning;
- Ocean observation applied to fishing sustainability or biodiversity;
- Techniques for data processing applied to maritime observation;
- Target detection, classification, and identification in maritime data;
- Marine pollution monitoring along with sea environment monitoring issues;
- Open water analysis and trends based on remote sensing.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
