Deadline for manuscript submissions:

**closed (30 December 2022)**

### Message from the Guest Editors

Dear Colleagues,

One of the most fascinating phenomena in biology is the ability of cells to decide about their fate in response to external stimuli. Understanding how cells perceive and integrate environmental cues to regulate their activity can be critical to both predict the effects of climate change on living organisms and to engineer new strategies to treat human diseases.

Marine organisms offer a rich source of diversity. The aim of this SI is to provide an overview of the current research exploiting marine organisms to study the complexity of cell decision making using approaches ranging from molecular, cellular, and physiological analyses to functional genomics, transcriptomics, and epigenetics.

Both original research articles and reviews are welcome. The areas may include but are not limited: (1) cell cycle and life cycle regulation in marine unicellular and multicellular organisms; (2) cellular responses to environmental stimuli in marine organisms; (3) cell fate acquisition in embryonic development.

We encourage submissions that are the outcome of projects that come from undergraduate teaching classes.

## Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (*Civil and Structural Engineering*)
