Deadline for manuscript  
submissions:

**closed (30 June 2022)**

### **Message from the Guest Editors**

Dear Colleagues,

This Special Issue aims to convey the latest progress in applied aspects of fish physiology with particular commercial and laboratory species interests. We would like to invite review and original research manuscripts that contribute knowledge to, among others, the following topics:

- Selective breeding for improving beneficially physiological traits;
- Alternative diets and gut microbiome for improving performance and health;
- Reproductive physiology in captivity;
- Environmental physiology related to stress tolerance;
- Genomics and epigenetics in fish physiology;
- Mitigating approaches to enhance commercial profits as well as fish welfare.

Our sincere intention is to develop this Special Issue to the extent that it will exceed our classical knowledge of fish physiology and provide valuable insights to resolving physiological problems and accurately projecting the physiological responses in commercial and laboratory settings.

Prof. Dr. Ten-Tsao Wong

Prof. Dr. Allen Place

## Message from the Editor-in-Chief

*Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312)* focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
