Artificial Intelligence in Marine Science and Engineering

Guest Editors:

Prof. Dr. Fausto Pedro García Márquez

Ingneium Research Group, Universidad de Castilla-La Mancha, Ciudad Real, Spain

Dr. Mayorkinos Papaelias

School of Metallurgy and Materials, University of Birmingham, Edgbaston, Birmingham B15 2TT, UK

Dr. Simone Marini

Institute of Marine Sciences (ISMAR) of the National Research Council (CNR), Lerici, Italy
Stazione Zoologica Anton Dohrn (SZN), Naples, Italy

Deadline for manuscript submissions:

closed (10 November 2021)

Message from the Guest Editors

Dear Colleagues,

The Special Issue covers research in Artificial Intelligence in Marine Science and Engineering, and shows how to apply it to many different professional areas, e.g., engineering, economic and management. Each paper of the Special Issue is contributed by a different author from across the world and covers a different area of Artificial Intelligence applied to Marine. The Special Issue connects the analytic principles with business practice and provides an interface between the main disciplines of engineering/technology and the organizational, administrative, economic and planning abilities of management in Marine Science and Engineering. It also refers to other disciplines such as finance, marketing, behavioral economics, and risk analysis. This Special Issue is of particular interest to researchers, engineers and economists who are developing new advances in analytics but also to practitioners working on this subject.

Message from the Editor-in-Chief

The Journal of Marine Science and Engineering (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (*Civil and Structural Engineering*)
