

## Advances in Position Mooring

Guest Editors:

**Prof. Em. Lars Bergdahl**

**Prof. Dr. Claes Eskilsson**

**Dr. Guilherme Moura Paredes**

**Dr. Johannes Palm**

Deadline for manuscript  
submissions:

**closed (15 March 2021)**

### Message from the Guest Editors

For this Special Issue, we would like to invite the submission of papers dealing with position mooring in a broad sense. This includes both experimental and numerical investigations on physical phenomena (e.g., snapping and strumming), fatigue monitoring, and condition monitoring. We are especially interested in work that aims to reduce the uncertainties associated with mooring dynamics, such as ground interactions, cable material modelling, and internal damping effects. Additionally, papers presenting innovative solutions to mooring design problems—including designs for newly emerging fields, such as floating solar parks, offshore aquaculture, and mega-islands—are highly encouraged.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (*Civil and Structural Engineering*)
