

## Storm Tide and Wave Simulations and Assessment

Guest Editors:

**Dr. Shih-Chun Hsiao**

Department of Hydraulic and  
Ocean Engineering, National  
Cheng Kung University, Tainan  
701, Taiwan

**Dr. Wen-Son Chiang**

Tainan Hydraulics Laboratory,  
National Cheng Kung University,  
5F., No. 500, Sec. 3, Anming Rd.,  
Annan Dist., Tainan City 70955,  
Taiwan

**Dr. Wei-Bo Chen**

National Science and Technology  
Center for Disaster Reduction,  
New Taipei, Taiwan

Deadline for manuscript  
submissions:

**closed (1 December 2020)**

### Message from the Guest Editors

In order to improve our simulating and analytic capabilities and understanding of storm tides, surges, and waves, this Special Issue is intended to collect the latest studies on storm tides, surges, and waves modeling and analysis utilizing dynamic and statistical models and artificial intelligence approaches. Research focusing on model development or model application is welcome. We look forward to receiving contributions in the form of research articles and reviews for this Special Issue. Topics include but are not limited to the following:

- Numerical modeling for storm surge, tide, and wave hindcast/prediction/forecast;
- Statistical analysis for storm surge, tide, and wave hindcast/prediction/forecast;
- Artificial intelligence techniques for storm surge, tide, and wave prediction/forecast;
- Assessment of coastal and marine hazard due to storm surges, tides, and waves;
- Influence of nonlinear interactions on storm tide and wave simulation;
- Effect of meteorological conditions on storm tide and wave simulation;
- High-resolution modeling;
- Coastal morphology evolution.

an Open Access Journal by MDPI

**Prof. Dr. Charitha Pattiaratchi**  
Oceans Graduate School and The  
UWA Oceans Institute, The  
University of Western Australia,  
Perth, WA 6009, Australia

## Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (*Civil and Structural Engineering*)
