Biodiversity of Marine Fishes

Message from the Guest Editors

According to a recent report by the Intergovernmental Science-Policy platform on biodiversity and ecosystem services, one in five people in the world depend on wild species for sustenance and income, with fisheries being the main source of food from wild species. Thus, the conservation of these resources through their sustainable management is more important than ever to achieve the UN Sustainable Development Goals. We welcome research papers, reviews, and contributions on various aspects of marine fish biodiversity, including, but not limited to, the following:

- Taxonomy and systematics;
- Distribution patterns;
- Conservation and management;
- Adaptations and behavior;
- Genetic diversity;
- Climate change impacts;
- Anthropogenic threats.

Guest Editors

Dr. Violin Raykov

Prof. Dr. Jose Pedro Andrade

Dr. Pasquale Ricci

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
