

Special Issue

Reviews in Marine Environmental Science and Engineering

Message from the Guest Editor

This Special Issue of the *Journal of Marine Science and Engineering (JMSE)* aims to provide an open-access forum for peer-reviewed review papers on current and emerging issues of interest in the fields of oceanography, marine biology, microbial ecology and environmental science/engineering. Emphasis for this Topical Collection will be placed on scholarly research that advances our knowledge and understanding of processes that influence and/or impact the health of the marine ecosystem (geochemical cycles, microbial ecology, marine pollution, climate change, etc.) and the development and application of marine ecosystem restoration strategies (oil spill countermeasures, habitat engineering, etc.). We invite researchers and their colleagues to contribute review papers on the state-of-knowledge, new developments as well as recommendations for future research in marine environmental science and engineering.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering (JMSE, ISSN 2077-1312)* is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

Oceans Graduate School and The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Marine) / CiteScore - Q2 (Civil and Structural Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2024).
