

Special Issue

Reviews in Marine Environmental Science and Engineering

Message from the Guest Editor

This Special Issue of the *Journal of Marine Science and Engineering (JMSE)* aims to provide an open-access forum for peer-reviewed review papers on current and emerging issues of interest in the fields of oceanography, marine biology, microbial ecology and environmental science/engineering. Emphasis for this Topical Collection will be placed on scholarly research that advances our knowledge and understanding of processes that influence and/or impact the health of the marine ecosystem (geochemical cycles, microbial ecology, marine pollution, climate change, etc.) and the development and application of marine ecosystem restoration strategies (oil spill countermeasures, habitat engineering, etc.). We invite researchers and their colleagues to contribute review papers on the state-of-knowledge, new developments as well as recommendations for future research in marine environmental science and engineering.

Guest Editor

Prof. Dr. Kenneth Lee

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q1 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
