Message from the Guest Editor

Dear Colleagues,

The *Cryptococcus* species cause infections in a variety of hosts and while many discoveries shed light on how infection and disease occur, more remains to be discovered. For this Special Issue, we invite original research articles or review papers on all aspects of *Cryptococcus* infections and pathogenesis. Potential topics include but are not limited to: microbial virulence factors involved in infection/pathogenesis, host responses that affect infection/pathogenesis, host–pathogen interactions, *Cryptococcus* transmission, antifungal therapies, and alternative disease models. We look forward to reading your contributions.

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
