University of Athens, Athens,
Greece

Message from the Guest Editors

The successful treatment of invasive fungal infections is challenging, as they often occur in patients with severely impaired immune responses. The appropriate choice and use of antifungal agents are among the cornerstones of appropriate management. Comprehensive knowledge and understanding of the pharmacodynamics of antifungal drugs elucidate dose–response relationships and are expected to lead to optimized dosage regimens in various circumstances. In this Special Issue, therefore, we invite colleagues to submit original research or review articles in the field of antifungal drug pharmacodynamics. Any other papers highlighting important developments or novel perspectives in this field are welcomed.

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
