Deadline for manuscript submissions:

closed (30 June 2022)

Message from the Guest Editors

Dear Colleagues,

Fungi is a very large but lesser-known eukaryotic kingdom. According to some approximations, there may be up to 3.8 million species of fungi on earth, but only a very small part of them has been formally described until now. The aim of this Special Issue is to publish a series of papers focusing on taxonomy, systematics, and phylogeny of all groups of fungi, their diversity, ecology, conservation, plant-fungal interactions of mycorrhizal, saprotrophic, and parasitic species in the various parts of the Holoarctic region. We hope that the submitted papers will improve our knowledge of fungi and their roles in ecosystems of this area.

Dr. Vladimír Antonín Dr. Hana Sevcikova *Guest Editors*

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
