## New Challenges and Perspectives in Neurology and Autonomic Disorders

Guest Editors:

**Dr. Svetlana Blitshteyn**

Department of Neurology,  
Jacobs School of Medicine and  
Biomedical Sciences, University  
at Buffalo, Buffalo, NY, USA

**Dr. Ilene Ruhoy**

Mount Sinai South Chiari EDS  
Center, Oceanside, NY, USA

**Dr. Jennifer Robblee**

Barrow Neurological Institute,  
Phoenix, AZ, USA

Deadline for manuscript  
submissions:

**closed (10 July 2024)**

### Message from the Guest Editors

The autonomic nervous system, consisting of sympathetic, parasympathetic and enteric divisions, is an integral part of the central and peripheral nervous systems and controls homeostasis, blood flow and responses to internal and external stimuli. Disorders of the autonomic nervous system—both common, such as POTS, neurocardiogenic syncope and orthostatic hypotension; and rare, such as multiple system atrophy, amyloid neuropathy and familial dysautonomia—have been an evolving area of research in basic and translational science as well as in clinical practice. More recently, the SARS-CoV-2 pandemic further underscored the need to elucidate the neurologic and autonomic mechanisms of post-infectious syndromes. To this end, the new frontier in neurology and autonomic disorders, as well as the mechanistic interplay between a wide range of neurologic conditions and autonomic dysfunctions, present an exciting opportunity for groundbreaking discoveries.

## Editor-in-Chief

### Prof. Dr. David Alan Rizzieri

1. Novant Health Cancer  
Institute, Winston-Salem, NC  
27103, USA  
2. Division of Hematologic  
Malignancies and Cellular  
Therapy, Duke University,  
Durham, NC 27710, USA

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
