### Message from the Guest Editors

Fetal and neonatal infections due to various microorganisms show signs and symptoms in pregnancy and in the neonatal period.

During pregnancy, infections may affect the mother and the baby, and clinical manifestations may vary. Fetal infections may induce the fetal inflammatory response syndrome (FIRS) or may lead to intrauterine fetal death (IUFD). In the former, placental examination is paramount in identifying the fetal inflammatory response (FIR), and even providing the etiologic agent, through targeted microbiological cultures, helping the neonatal management. In the latter, fetal autopsy and placental examination, according to international guidelines, may also detect the infective agent and provide useful information for maternal clinical management.

Early-onset neonatal sepsis is within the range of FIRS and signs and symptoms may vary, requiring prompt treatments.

The different spectrum of infections during pregnancy and how they can affect the mother, the fetus and the newborn will be addressed in this Special Issue. Placental examination, and in some cases, autopsies, are fundamental in the clinical management of patients.

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
